

F. C. M.

Demand For Both Cattle And Hogs

Prices in almost all provinces in Canada are well stocked with cattle this winter and in some cases there is an abundant supply of hogs. The number of head showing an increase in demand. "Domestic prices were somewhat higher in previous year. This was due to improvement in domestic demand and export demand. In the States where prices were high for some years," states Cultural Situation and Outlook, 1934, to be issued shortly by the Department of Agriculture, Trade and Commerce.

The export market for "Outlook" states in part: "The exports of cattle and calves exceeded those of previous year by over one per cent. Substantial shipments of cattle and beef were made to the Dominion during the first half of 1933, but the rapid increase in the United States, and a similar improvement in

United States Bureau of
Economics "does not
a recurrence of the high
beef cattle during the
Summer of 1936, but
barriers lower on Cana-
the influence of the
is expected to be an

United States." The United States Bureau of Agricultural Economics predicts that the increase of the high wheat outlet during the last summer of 1936, that has been noted by Canada, the influence of the rates is expected to be an price factor in the Canadian export during 1937.

The price of hogs is increasing in Canada and Great Britain and London. The increase in Canada is not expected to be as much as in England. "The British have been a very important market for Canadian hogs," says the report. "Hence the most important factor of the disposal of production over the Canadian hog producers, should still continue to have an effect on prices during the coming year."

"The prices of corn of the probable domestic output and export possibilities tend to rise in proportion to the Canadian hog prices. Corn will probably remain steady or slightly higher because of the increase in volume."

Information for five crops of the United States will be made available by the United States and Extension Service, Department of Agriculture,

Demand For Both Cattle And Hogs

Prices in almost all provinces in Canada are well stocked with cattle this winter and in some cases there is an abundant supply of hogs. The number of head showing an increase in demand. "Domestic prices were somewhat higher in previous year. This was due to improvement in domestic demand and export demand. In the States where prices were high for some years," states Cultural Situation and Outlook, 1934, to be issued shortly by the Department of Agriculture, Trade and Commerce.

The export market for "Outlook" states in part: "The exports of cattle and calves exceeded those of previous year by over one per cent. Substantial shipments of cattle and beef were made to the Dominion during the first half of 1933, but the rapid increase in the United States, and a similar improvement in

The United States Bureau of Economic Analysis "does not have a recurrence of the high inflation rates during the summer of 1980, but barriers lower on Canadian side." The influence of the oil price factor will be a price factor in the market during 1986.

The number of jobs is increasing in the United States, and the London. The increase in Canada is not expected to announced until the latter part of the year. It has been a very important selling prices of Canadian goods, the most important factor in production of Canadian requirements.

The market should continue to have effect on prices during the summer of 1986. The probable domestic export possibilities leads authorities to the conclusion that the economy will probably remain unresponsive despite the excessive in volume."

For free copies of the report, it may be made to the

United States Bureau of Economics, and a representative of the Bureau of Agriculture, and a representative of the high board calling the meeting. The barriers lower on Canada, the influence of the United States is expected to be an important factor in the future. The United States is expected to be an important factor in the future. The United States is expected to be an important factor in the future.

OPPORTUNE FLOUR MILLS
DELIA
 Opportunity Flour is always reliable, and is milled under expert supervision from wheat grown in your own district.
 Opportunity Flour is of high protein content, and consequently is of greater food value.
 When you buy your flour at the Opportunity Flour Mills you support a fine industry.
 Graham Milling, Bran and Shorts always on hand.
McKAY & GATES
 PROPRIETORS
